

Experience

UX Co-op/Intern

Jun – Dec 2021

LenelS2 | Pittsford, NY, USA

As a UX designer in an international team of 6, help design experiences and conduct user testing while collaborating with developers for one of the company's flagship products.

- Designed and animated an experience for a guest access solution using Figma and ProtoPie.
- Conducted AB usability testing for video security solution with a ProtoPie prototype and existing UI.
- Design an experimental lockdown feature with a mobile shortcut for PO and PM review.
- Migrated component library from Sketch to Figma and maintained it throughout the duration of the co-op.
- Conducted user research for the QA team to determine areas of improvement for the QA lab.

Front-end Development Intern

Jun – Aug 2019

Tamago-DB K.K. | Shinagawa, Tokyo, JP

Refactored charts originally configured using a legacy Google Charts library with a more modern C3.js library.

- Used Laragon as a local deployment environment.
- Tweaked design in a Symfony 3 codebase using HTML, CSS, and JavaScript.
